Originally posted by Steve Neul, the old Powermatic was intended to empty the dust with a shovel. Before you go any farther if you want to modify it for dust.

Powermatic model 66 table saws not sure of working condition, was told they ran but could not test. Three phase 220/240 3 HP. One is missing motor cover. Crafted of heavy-duty black plastic, this motor covers fits model numbers 66 and 72. The 5 HP or Higher model fits newer Powermatic table saws with 5″ or 7.5″ motors. Lighter weight means lower shipping costs and easier installation! 10" Table Saw: Powermatic: Model no. 66, Serial no. 3661395, 3HP, 3PH, 220V, Biesmeyer fence system recently installed. (10" Table Saw:..
I found a Powermatic 66 with a 52" Biesemeyer fence. Looks to be in 1.5hp model, will it have enough power for my needs? I think it's fairly common, lots of table saws are set up with 5 HP/single phase motors. I see $650 as a You can remove all those parts and reduce the weight for moving. My model 66.

Powermatic 6472335 Model 184C Horsepower 3450 RPM Baldor Replacement Motor for the Model 66, 72A, and 74 Table Saws, 230-Volt 1 Phase.
